## Q1 2026 Fund Commentary

*Commentary and opinions are provided by Mackenzie Investments.*

### Market commentary

Canada's economy navigated a challenging first quarter as trade uncertainty continued to weigh on business confidence and manufacturing activity. Employment fell in January and February before stabilizing in March, when the economy added 14,000 jobs and the unemployment rate held steady at 6.7%. Consumer spending remained cautious, and trade-sensitive industries faced ongoing pressure from tariff uncertainty.

The Bank of Canada held its policy rate at 2.25% at both its January and March meetings, citing moderating inflation and persistent economic uncertainty. Canada's inflation rate eased to 1.8% in February, the softest reading in several months, reflecting contained domestic price pressures ahead of the energy price shock that emerged later in the quarter.

Canadian small- and mid-capitalization equities had a volatile quarter. The S&P/TSX SmallCap Index posted strong gains in January and February as improved risk appetite and rising commodity prices supported smaller companies, but gave back much of that momentum in a sharp March selloff after geopolitical events in the Middle East triggered a broad retreat from higher-risk equities. Energy-oriented small and mid-cap companies outperformed as crude oil prices surged, while domestically focused companies faced more pressure as global uncertainty weighed on investor confidence and the index ended the quarter roughly flat.

### Performance

Stock selection in the financials sector contributed to the Fund's performance.

CES Energy Solutions Corp., Ivanhoe Mines Ltd. and Tamarack Valley Energy Ltd. contributed to the Fund's performance.

An underweight allocation to the materials sector detracted from the Fund's performance. Stock selection in the real estate and energy sectors also detracted from performance, as did stock selection in Canada.

Badger Infrastructure Solutions Ltd., TerraVest Industries Inc. and Colliers International Group Inc. detracted from the Fund's performance.

### Portfolio activity

The sub-advisor added Emerson Electric Co., United Parcel Service Inc., Huntington Bancshares Inc. Merck & Co. Inc. and CVS Health Corp., among others.

J.B. Hunt Transport Services Inc., Exxon Mobil Corp., The Coca-Cola Co., McDonald's Corp. and Ford Motor Co. were increased.

Xylem Inc., Encompass Health Corporation, Boston Scientific Corporation, Exelon Corp., Uber Technologies Inc., The Allstate Corp. and CME Group Inc. were sold

Microsoft Corp., Alphabet Inc., Amazon.com Inc., Ralph Lauren Corp. and Take-Two Interactive Software Inc. were reduced.
