## Q4 2025 Fund Commentary

*Commentary and opinions are provided by Setanta Asset Management Limited.*

### Market commentary

Global equity markets rose during the year, with the MSCI World Net Total Return Index (CAD) rising 15.4%. Early in the year, the launch of low-cost Chinese artificial intelligence (AI) app DeepSeek caused AI-related stocks to fall. This was followed by the announcement of U.S. tariffs in early April, which led equities more broadly to decline. However, from its early-April low, the overall equity market recovered to end the year at an all-time high.

Although less pronounced than in the previous two years, the AI theme was a key driver of overall market returns. Many information technology companies increased spending plans. Later in the year, investors became concerned about the size and potential return on this invested capital.

### Performance

The Fund's relative exposures to Alphabet Inc., Samsung Electronics Co. Ltd. and Applied Materials Inc. contributed to performance. Relative exposures to Oracle Corp., Netflix Inc. and Meta Platforms Inc. detracted from performance.

At a sector level, underweight exposure to the information technology sector and overweight exposure to the health care sector contributed to the Fund's performance. Stock selection in the financials and health care sectors detracted from performance.

### Portfolio activity

The sub-advisor added Novo Nordisk AS to the Fund and sold a holding in Viscofan SA.

### Outlook

The sub-advisor looks for attractively valued companies in global markets. The sub-advisor's investment decisions are not driven by macroeconomic events and does not include any macroeconomic forecasting in the search or selection process.

March 31, 2026

\*For Partner series and Preferred partner series an advisory and management services (AMS) fee, of between 0.50% and 1.25%, is negotiated between you and your advisor. The MER doesn't include this fee.

Canada Life is currently waiving a portion of the investment management fees on the High Interest Savings fund to target an estimated management expense ratio of 1.00%. Canada Life is not obligated to continue waiving these fees and it may cease to do so at any time without notice.

The 7-day annualized yield is based on the annualized total return of the fund over the past seven calendar days and does not represent an actual one-year return. It's important to note that 7-day annualized yield is not an indicator of future performance of the fund.

^Deferred Sales Charge (DSC) purchase option is not available for new contributions given regulatory bans that came into effect June 1, 2023. For certain policies where DSC is the only sales charge option available, new contributions may be accepted. Additional disclosure may be required.

†Soft capped - Contributions are no longer accepted to new investors., ‡Hard capped - Contributions are no longer accepted.

Distribution of the chart, history standard and short-term reports are not permitted without including the fund profile long-term report. A description of the key features of Canada Life's individual variable insurance contract is contained in the information folder, available from your advisor. Any amount that is allocated to a segregated fund is invested at the risk of the policyowner and may increase or decrease in value. A description of the key features of Canada Life's individual variable insurance contract is contained in the information folder, available from your advisor.
