Q4 2025 Fund Commentary

Commentary and opinions are provided by Setanta Asset Management Limited.

Market commentary

During the year, gold, silver and Bitcoin hit record highs. In equities, the Bloomberg Europe Defense Select Index rose 73% (in euro terms), while MSCI EAFE Index returns exceeded MSCI U.S. Index returns for only the third time in 10 years. Despite strong performance across many asset classes, it was also a year of higher volatility with global equity markets falling 17% in the run-up to the U.S. administration's April 2025 tariff announcement before rebounding. Overall, the MSCI EAFE Index rose 26% (in U.S.-dollar terms) for the full year.

Performance

The Fund's relative exposures to Samsung Electronics Co. Ltd., Roche Holding AG and Bank of Ireland Group PLC contributed to performance. Relative exposures to Tencent Holdings Ltd., Legrand SA and Dassault Systemes SE detracted from performance.

At a sector level, stock selection in the information technology and communication services sectors contributed to the Fund's performance. Exposure to the health care sector detracted from performance.

Portfolio activity

There were no notable transactions made in the Fund during the quarter.

Outlook

The sub-advisor looks for attractively valued companies in European, Australasian and Far Eastern markets. The sub-advisor's investment decisions are not driven by macroeconomic events and does not include any macroeconomic forecasting in the search or selection process.
